

AWS CAREERS IN WELDING TRAILER

MISSION STATEMENT

The American Welding Society has teamed up with Lincoln Electric and others to teach youth and adults about career pathways involved in welding. Communities experience the latest in welding technology and learn about welding careers and education aboard a state-of-the-art trailer outfitted with five VRTEX® 360 virtual reality arc welding training simulators.

VOLUNTEERING INFORMATION

Collaborate with fellow professionals along with permanent staff members from the American Welding Society. If you need help using the VRTEX® 360 virtual reality system, answering questions, or with anything else, just ask!
